rosevilleorthopedics.com

#### Dear Patient.

Welcome to Roseville Orthopedics Physical Therapy. We are pleased that you have chosen us for your rehabilitation needs. Our goal is to provide you with the highest quality care in a clean and professional environment. Before you begin your therapy program, an evaluation will be performed to assess your individual needs. The evaluation will take approximately 60 minutes. It is important that you come to your evaluation at least 15 minutes early to complete necessary paperwork.

When you come for your evaluation, you should bring the following information:

- 1. Therapy prescription from physician
- 2. Personal identification
- 3. Insurance card
- 4. Co-pay (if applicable)
- 5. List of medications you are currently taking

### Appointments:

Our patients are seen by appointment only. After your evaluation, schedule follow up visits at our reception desk. It is critical that you are on time for your appointments. Being late may make it necessary to shorten your therapy session so it does not disrupt other patients' scheduled appointments.

### Appropriate Attire:

Please wear clothes suitable and comfortable to perform exercise. This includes shorts, sweats, athletic sweats and shirt. If you have a knee problem it is best to wear shorts so we can work on your knee, as needed.

### Cancellations / Reschedule:

Because we provide services by appointment, it is critical that you allow 24 hour notice if you must cancel an appointment. This is a courtesy to the clinical staff as well as to other patients. Habitual cancellations may lead to discontinuation of services and/or notification to your physician and insurance carrier.

Regular attendance and active participation in your therapy program is necessary for you to get the maximum benefit from our services. It is also important for you to have open communication with your therapist about the therapy being provided and any pain you might be experiencing so that therapy can be adjusted to meet your needs.

If you have any questions regarding our services, please call our office at 916-782-1217.

We look forward to working with you.

Sincerely,

James E. Eaton, MSPT

Physical Therapy 151 N. Sunrise Ave, Suite 1001 Roseville, CA 95661 Tel: 916-782-1217

### **Patient Notice**

You are being referred for physical services. You may seek therapy services from a therapist of your choice who may or may not be employed by Roseville Orthopedic Surgery & Sports Medicine. If you choose to be treated by a therapist employed by Roseville Orthopedic Surgery & Sports Medicine, please be aware that your physician has a financial interest in Roseville Orthopedic Surgery & Sports Medicine and its therapy clinic.

Please note also that while we believe it is proper you are notified of this relationship and your ability to work with other therapists, we also believe you benefit from the close working relationship we have with the therapists at Roseville Orthopedic Surgery and Sports Medicine and from our ability to ensure that the therapists treating you are among the highest quality therapists available.

Please acknowledge your receipt of this notice by signing and dating this notice below.

# Patient Instructions for Completing the Functional Outcome Questionnaire

Roseville Orthopedics Physical Therapy would like to thank you for completing the following questionnaire. The questionnaire is designed to help your therapist set personal goals for your rehabilitation program, communicate progress to your physician and improve the quality of the care that is provided to you. Please read through the following specific instructions in order to complete this questionnaire.

- 1. If you are unsure as to how to answer any specific question, please ask your therapist during your evaluation.
- 2. Answer all questions based on your ability to perform the activity with your involved or "bad" hand, arm, leg or foot.
- 3. Please do not answer according to your ability to adapt and do with the other or "good" hand, arm, leg or foot.
- 4. Answer all questions based on how your present condition has changed your ability to perform these activities.
- 5. If any factor (such as pain, weakness, unsteadiness, bracing or casting) is affecting your ability to perform any of the activities in the questions, then that specific question should not be scored as normal.
- 6. If any question is not related to your present condition, please score as N/A.
- 7. Please rate your pain level before you take any pain medication.

### **FUNCTIONAL ASSESSMENT QUESTIONNAIRE**

Patient Name:	Age:	Gender:	Number of Visits:
Using the key below please circle one a	nswer in each box th	nat indicates your abi	lity to do the following activities;

<u>Key:</u> ( $\underline{0}$  = unable) ( $\underline{1}$  = very difficult) ( $\underline{2}$  = moderately difficult) ( $\underline{3}$  = minimally difficult) ( $\underline{4}$  = normal) ( $\underline{N/A}$  = not applicable to your current condition)

Activity				Score		
1. Sleep normally	0	1	2	3	4	N/A

### Medicare Therapy Cap

To: Our Medicare Patients

Medicare caps the amount it spends on physical, occupational and speech therapy for each patient.

For 2016, the cap is \$1,940 for physical and speech therapy (combined) and another \$1,940 for occupational therapy. Co-pay and unmet deductible amounts count against the cap, so if you have met your Medicare deductible and do not receive speech therapy, Medicare will pay up to \$1,552 (80% of \$1,940) for your outpatient physical therapy for this year.

You should not be affected by the cap because most Medicare patients are seen for less than 20 therapy visits with each visit averaging about \$85, for a total of \$1,700.

In addition, Medicare allows a number of exceptions to the cap that will allow you to continue treatment that will be covered by Medicare.

We will help you determine if your therapy costs are close to the cap. If you are close to the cap and you need additional therapy, we can help you choose between the following options:

- (1) You may qualify for an exception to the cap that will permit you to continue therapy that is covered by Medicare;
- (2) If you have a federal/government secondary coverage, your secondary insurer <u>may</u> pay for costs above the cap;
- (3) You can obtain additional therapy at a hospital outpatient clinic (which is not subject to the cap.

We will do our best to provide you with the therapy services you need while minimizing your costs. You are welcome to direct any questions you have regarding the cap to your therapist.
